## 30 SECONDS Spray & Walk Away – Concentrate

30 SECONDS Spray & Walk Away is specifically formulated to kill Lichen, Moss, Mold & Algae on roofs & other exterior surfaces outdoor.

30 SECONDS Spray & Walk Away is perfect for:

- Roofs: Composite, Glazed Tile, Shingles, etc.
- Pathways
- Sealed Brickwork
- Sealed Concrete
- Asphalt Driveways
- Vinyl & Aluminum Siding
- Wood Decks

### DIRECTIONS FOR USE:

**It is a violation of Federal law to use this product in a manner inconsistent with its label.**

**Read all Directions and Precautionary Statements before use.**

1. Shake contents before use.
2. Mix one part of 30 SECONDS Spray & Walk Away to five parts (1:5 mix ratio). 1 gallon makes 6 gallons of Ready To Use product and treats 750-2250 sq. ft., depending on the growth and porosity of the surface. Use a backpack or pump up tank sprayer to apply.
3. Spray surface to be treated when surface is DRY and rain is not predicted for 12 hours or longer.
4. Thoroughly saturate surfaces to be treated. To maximize coverage, remove excessive organic growth or clumps where possible, prior to applying Spray & Walk Away. This will save you money and increase the effectiveness of the product.
5. Once treated, the surface requires no pressure washing, scrubbing or rinsing. Just thoroughly WET the surface and WALK AWAY.
6. Treated surfaces will show signs of decay over coming weeks and growth will erode away with

the weather. Alternatively leave treated surface for a few days after treatment, then brush off decaying growth with a stiff brush.

7. After use clean and flush applicator thoroughly with water.

If you prefer immediate results, we recommend 30 SECONDS Outdoor Cleaner.

### ONGOING MAINTENANCE:

30 SECONDS Spray & Walk Away does not show immediate results, but works as a treatment, killing the growth slowly and effectively over time without damaging the surface. Some Lichen & Moss may take a week to remove or show signs of decay. If the surface to be treated is not fully exposed to rainfall or is vertical, then some additional wetting of the surface may be required. Reapplication maybe required where heavy growth persists. Do not repeat treatment more than (6) times per year.

### ADVICE FOR SPECIFIC SURFACES

**Wood Decks:** Growth on Cedar or Redwood may require brushing for complete growth removal. Use water and a hard broom 1 month after application. Once cleaned, it may be maintained with Spray & Walk Away to prevent further growth or stains.

**Residential Lawns/Turf:** Use Spray & Walk Away as a spot treatment for algae/moss growth. Spray a solution of 5.1oz. of Spray & Walk Away per 5 gallons of water until surface is thoroughly saturated. If necessary, repeat spray applications after 10 days. Treatment is not to exceed 25 gallons per 1000 sq. ft. Do not repeat treatment more than 6 times per year.

**Play Equipment:** Do not allow children on play equipment (i.e. slide, plastic gyms) if it has been treated with Spray & Walk Away until the equipment has been washed down with fresh water, at least 24 hours after application.

### HELPFUL HINTS AND PRECAUTIONS:

Staining on hard surfaces can occur, so always test on a small, inconspicuous area first.

30 SECONDS Spray & Walk Away is best applied in overcast, dry conditions to avoid rapid evaporation.

**DO NOT** allow spray to come into contact or drift onto plants or trees.

**DO NOT** allow pets to walk on treated areas until surface has dried. If contamination does occur, rinse animals paws.

**DO NOT** allow product to enter lakes or streams or enter storm water drainage systems.

**DO NOT** use on roofs where potable water is collected.

#### **FIRST AID:**

**IF IN EYES:** Hold eye open and rinse slowly and gently with water for 15-20 minutes. Remove contact lenses, if present, after the first 5 minutes, then continue rinsing eye. Call poison control center or doctor for treatment advice.

**IF ON SKIN OR CLOTHING:** Remove contaminated clothing. Rinse skin immediately with plenty of water for 15-20 minutes. Call a poison control center or doctor for treatment advice.

**IF SWALLOWED:** Call a poison control center or doctor immediately for treatment advice. Have person sip a glass of water if able to swallow. Do not give anything by mouth to an unconscious person. Do not induce vomiting unless told to do so by a poison control center or doctor.

**IF INHALED:** Move person to fresh air. If person is not breathing call 911 or an ambulance, then give artificial respiration, preferably mouth-to-mouth, if possible. Call a poison control center or doctor for further treatment advice. Have the product container or label with you when calling a poison control center or doctor, or going for treatment.

#### **PRECAUTIONARY STATEMENTS**

##### **HAZARDS TO HUMANS AND DOMESTIC ANIMALS**

**DANGER:** Corrosive. Causes irreversible eye damage and skin burns. Harmful if swallowed or absorbed through skin. Do not get in eyes, on skin, or on clothing. Wear protective eyewear (safety glasses or face shield), protective clothing, and rubber gloves. Wash thoroughly with soap and water after handling and before eating, drinking, chewing gum, using tobacco or using the toilet. Remove contaminated clothing wash clothing before reuse. Avoid contamination of food. Avoid breathing spray mist.

#### **Personal Protective Equipment (PPE)**

Applicators and other handlers must wear protective eyewear, long pants and long sleeved shirt, shoes plus socks, and chemical-resistant gloves.

Discard clothing and other absorbent materials that have been drenched or heavily contaminated with this product concentrate. Do not reuse them. Follow manufacturers instruction for cleaning/maintaining PPE. If no such instructions for washables, use detergent and hot water. Keep and wash PPE separately from other laundry.

#### **User Safety Recommendations**

##### **Users must:**

- Wash hands before drinking, eating, chewing gum, using tobacco or using the toilet.
- Remove PPE clothing immediately if the pesticide gets inside, then wash thoroughly and put on clean clothing.
- Remove PPE immediately after handling this product. Wash the outside of gloves before removing. As soon as possible, wash thoroughly and change into clean clothing.

#### **ENVIRONMENTAL HAZARDS**

This pesticide is toxic to fish. Do not Discharge effluent containing this product into lakes, streams, ponds, estuaries, oceans or other waters unless in accordance with the requirements of a National Pollutant Discharge Elimination System (NPDES) permit and the permitting authority has been notified in writing prior to discharge. Do not discharge effluent containing this product into sewer systems without previously notifying the local sewage treatment plant authority. For guidance contact your State Water Board or Regional Office of the EPA.

#### **STORAGE AND DISPOSAL**

Do not contaminate water, food, or feed by storage and disposal.

**Pesticide Storage:** Store in original container in locked storage areas inaccessible to children. Open dumping is prohibited.

**Pesticide Disposal:** Pesticide wastes are acutely hazardous. Improper disposal of excess pesticide, spray mixture or rinsate is a violation of Federal Law. If these wastes cannot be disposed of by use according to label instructions, contact your State Pesticide or Environmental Control Agency, or the Hazardous Waste Representative at the nearest EPA Regional Office for guidance.

**Container Disposal:** Triple rinse (or equivalent) then offer for recycling or reconditioning or puncture and dispose of in a sanitary landfill or incineration, or if allowed by state and local authorities by burning. If burned, stay out of smoke. Do not use water containing residues from use of this product to irrigate crops for food or feed. Non-refillable Container: Do not reuse or refill empty container.
